KURIKULUM & OBJEKTIF PEMBELAJARAN	
Standard Kandungan (SK)	• 1.2 Understand meaning in a variety of familiar contexts • 2.1 Communicate simple information intelligibly
Standard Pembelajaran (SP)	• 1.2.2 Understand with support specific information and details of longer simple texts on a range of familiar topics • 2.1.1 Give detailed information about themselves • 2.1.5 Describe people, places and objects using suitable statements
Kemahiran TMK	PowerPoint Slides, YouTube (video clip on daily routines), Wordwall (interactive vocabulary game)
Objektif Pembelajaran	At the end of the session, pupils can: 1. Analyze details of daily schedules by matching at least 4 activities to their correct times based on a text. 2. Evaluate time-management habits by comparing their own routines with a peer. 3. Create a personalized, creative 1-day timeline presentation showcasing their daily routine.
Kriteria Kejayaan	1. Pupils can identify specific details about routines from an audio/text passage. 2. Pupils can express clear, logical sentences using adverbs of frequency (e.g., <i>usually</i>, <i>sometimes</i>). 3. Pupils produce a visually structured creative daily timeline task.

PELAKSANAAN AKTIVITI (LESSON OUTLINE)

Set Induksi (Introduction) 5 Minutes	- The teacher plays a short, upbeat video clip showing a hectic morning routine. Teacher's Question: <i>"What happens if we don't plan our days properly?"</i> - Pupils brainstorm and write down 2 keywords on their mini whiteboards or A4 papers (e.g., <i>"late"</i>, <i>"messy"</i>).
Aktiviti Utama — Langkah 1 Deep Inquiry & Analysis 20 Minutes	Teacher gives a challenge question: <i>"How do people in different parts of the world structure their daily routines to make the best use of their time?"</i> Pupils work in groups of 4 to analyze a 2-paragraph reading text about a child's unique school schedule in another country. - Pupils extract specific time and activity details. - They collaborate to create a comparative mind map linking Activities → Time → Adverbs of Frequency on large paper. Teacher's Role: Acts strictly as a facilitator; asks probing questions rather than directly giving the answers.
Aktiviti Utama — Langkah 2 HOTS Task / Creative Presentation 25 Minutes	Pupils working individually or in pairs design a "My Perfect Day" Creative Timeline Infographic or brief journal entry. - They are allowed to choose their medium of presentation (sketching it out on paper or drafting a script for a mini roleplay). - They must incorporate adverbs of frequency (<i>always, usually, sometimes, never</i>) to describe their actions accurately. Teacher's Role: Walks around guiding pupils with challenging prompts to deepen their vocabulary choices.
Penutup / Refleksi Cadangan Closure 10 Minutes	- Pupils summarize their learning journey today rather than the teacher summarizing it for them. Teacher asks: <i>"Who can confidently explain how to talk about your day to a friend who missed class today?"</i> - Pupils submit an exit ticket containing one high-level (HOTS) question about productivity as a challenge for the next session.

MAKLUMAT TAMBAHAN

Elemen KBAT	Cognitive Level: Evaluating & Creating HOTS Questions: • <i>"If you could change one thing about your school timetable to make learning more fun, what would it be and why?"</i> • <i>"Design a creative symbol or icon system to teach time management and daily routines to a Year 1 pupil."</i>
Bahan Bantu Mengajar (BBM)	• Digital slides on "Everyday Routines" • Printed reading text cards (1 per group) • Mini whiteboards or A4 paper • Coloured marker pens • Year 5 English Textbook / CEFR-aligned reference materials
Pentaksiran (PBD)	Target Level: CEFR A2 Low (Band 4–5 equivalent). Assessed via the pupils' timeline portfolio and peer-sharing session. Focus is placed on their command of adverbs of frequency, logical sentence sequencing, and deep critical reasoning rather than rote accuracy.
Refleksi Guru (Teacher's Reflection)	<i>(To be filled after the lesson concludes)</i> 1. Number of pupils who successfully achieved the objectives: _____ / _____ 2. Which component proved most effective? Why? _____ 3. What instructional adaptations are required for the next lesson? _____
Catatan / Nota Tambahan (Enrichment)	PENGAYAAN (Extension Task for High Achievers): Fast-finishing or gifted pupils will complete an independent mini-research challenge: compare their schedules with historical figures or create a complex 3-paragraph future schedule prediction text using <i>"will"</i> and <i>"won't"</i>.
